

Portable Tungsten

# ELECTRODES GRINDER

Type THS - to be used at working place

- for POINTING, REGRINDING, FLATTENING and CUTTING of Tungsten electrodes

## Advantages

- Centered grinding in longitudinal direction
- stable arc
- considerably longer life time
- uniform weld seam

## Technical Data

Electrode diameter	1,6; 2,4; 3,2 mm
Grinding motor	230 Volt, 50/60 cycles, CE
RPM	5000 to 20000 rpm <sup>-1</sup> infinitely adjustable

with double-sided diamond wheel
